Building Permits

To Applicants

An applicant for a building permit must submit the following.

1. Two complete sets of construction drawings which include foundation, floor plan elevation and cross section details, floor system layouts and details and truss system engineered drawings and layout.
2. A site plan detailing the property size and positioning of the proposed building on the lot.
3. An “approved” Municipal Development Permit or equivalent copy.
4. A completed permit application.
5. Permit fee payment

Site Inspections

Site Inspections will be carried out at the following intervals.

1. Foundation Inspections (prior to backfill) with weeping tile, gravel and damp proofing completed.
2. Framing Inspection (prior to wall covering) with all wall, floors roofing and foundation backfilling completed plus all sub-trade rough-in work completed.
3. Final Inspection (before occupancy) The project is completed

**Please allow two (2) business days notice for site inspections**
